PROFESSIONAL PROFILE

Cybersecurity professional with experience spanning technology support, operational management, compliance-focused environments, education, and client-facing commercial roles. Having developed a broad foundation across multiple industries, I have intentionally transitioned into cybersecurity to combine technical expertise with governance, risk, compliance, and business-focused security practices.

Recently completed a BSc (Hons) Cyber Security and Forensic Computing at London Metropolitan University, achieving First Class Honours, where my research and development work focused on creating a Context-Aware Cybersecurity Compliance Mapping Tool for SMEs. The platform was designed to support organisations in understanding and implementing Cyber Essentials requirements through automated risk assessment, compliance mapping, and explainable security guidance.

My interests centre on Governance, Risk and Compliance (GRC), Information Security, Cyber Essentials, Security Governance, Security Consultancy, Regulatory Compliance, Legal Technology, Public Sector Security, and cybersecurity awareness initiatives. I am particularly interested in roles that bridge technical security requirements with organisational governance, risk management, and regulatory obligations.

CORE COMPETENCIES

- Governance, Risk & Compliance (GRC)
- Cyber Essentials & Security Frameworks
- Information Security Principles
- Risk Assessment & Risk Management
- Security Awareness & Education
- Compliance Monitoring & Reporting
- Stakeholder Engagement
- Data Protection & GDPR Awareness
- Security Documentation & Evidence
- Technical Support & User Admin
- Analytical Problem Solving
- Project Delivery & Agile Methods

FEATURED PROJECT

Context-Aware Cybersecurity Compliance Mapping Tool

Final Year Project - BSc Cyber Security & Forensic Computing

- Designed and developed a Flask-based cybersecurity assessment platform for SMEs
- Automated Cyber Essentials compliance assessments through weighted risk scoring
- Implemented compliance mapping against recognised security frameworks including Cyber Essentials and ISO 27001
- Developed explainability features to help non-technical stakeholders understand cybersecurity controls
- Generated automated compliance reports, risk analytics, and remediation roadmaps
- Integrated questionnaire-driven assessments with evidence gathering and reporting functionality
- Applied Agile development principles throughout design, implementation, testing, and refinement
- Focused on reducing the compliance interpretation gap for organisations without dedicated cybersecurity expertise

EDUCATION

BSc (Hons) Cyber Security and Forensic Computing

Sep 2025 - Jul 2026

London Metropolitan University

First Class Honours (1st)

Relevant Areas:

- Information Security
- Digital Forensics
- Network Security
- Ethical Hacking
- Risk Assessment
- Security Governance
- Cybersecurity Compliance

Level 4 & 5 Diploma in Cyber Security

Sep 2023 - Jul 2025

LSIB - London School of International Business

Level 3 Diploma in Cyber Security

Sep 2023

UK Professional Development Academy

Level 3 Diploma in Mixed Media Studies

Sep 2011 - Jul 2012

City and Islington College

PROFESSIONAL DEVELOPMENT

GDG Academy — Autumn Cohort '25

2026 Alumnus

Mentored by Stephen Hill

Participated in the GDG Academy mentoring programme alongside my studies at London Metropolitan University.

CERTIFICATIONS

- Qualys Certified Specialist - PCI & Policy Compliance
- Governance, Risk & Compliance for Cloud
- ISO 27001:2022 Compliant Cybersecurity
- SaaS Security

PROFESSIONAL EXPERIENCE

Cybersecurity Consultant
2025 - Present

Fortify Insight

- Deliver cybersecurity awareness training to schools, businesses, and corporate teams
- Develop interactive workshops on digital safety, AI responsibility, and cyber risk management
- Design trauma-informed digital safety strategies for educational environments
- Conduct security awareness and compliance training programmes for corporate clients
- Create scalable training solutions with measurable outcomes across diverse audiences
- Advise organisations on cybersecurity best practices, data protection, and digital resilience

Senior Sales Property Consultant & Negotiator
2019 - 2022

Chestertons

- Managed sensitive client information in accordance with GDPR and confidentiality requirements
- Produced accurate documentation, reporting, and compliance records
- Analysed market data and trends to support business decisions and client recommendations
- Built strong stakeholder management, communication, and negotiation skills

Property Consultant & Manager
2018 - 2019

Henry Wiltshire International

- Led client engagement activities across a regulated business environment
- Maintained accurate records and compliance-focused documentation
- Developed leadership, commercial awareness, and performance management skills

ICT Technician
2015 - 2018

Monteagle Primary School

- Delivered first-line ICT support across software, hardware, and network environments
- Managed user accounts, permissions, and access controls
- Supported device deployment, maintenance, and troubleshooting activities
- Contributed to secure and reliable technology operations supporting staff and students

Studio Technician / Teaching Assistant
2011 - 2015

Primrose Hill Primary School

- Supported digital learning and technology-enabled education
- Maintained digital equipment and technical resources
- Developed strong presentation and stakeholder engagement skills

ADDITIONAL EXPERIENCE

Creative Director / Artist Manager

PropellarGroup / NineofClubsMusic

- Coordinated projects involving multiple stakeholders
- Managed planning, communication, and creative delivery
- Developed leadership and project management capability

Cyber Safety Workshop Development (Fortify Insight)

Independent Initiative

- Designed age-appropriate cybersecurity awareness workshops for primary school students
- Developed engaging materials on cyber safety, passwords, privacy
- Combined technical knowledge with educational delivery

TECHNICAL TOOLS

- Flask
- Python
- SQLite
- Nmap
- Wireshark
- Kali Linux
- Cyber Essentials
- ISO 27001
- Risk Assessment
- Microsoft 365
- Documentation

ADDITIONAL INFORMATION

- Dutch Language Studies @ Kings college London
- Full UK Driving Licence
- Eligible to work in the United Kingdom
